

Arts and Sciences Student Course Opinion Questionnaire (Spring 2022) Completed

Spring Semester 2022 / Student Course Evaluation (End of Term) / Anonymous Survey

Course Assignments: **1304** / Survey Participants: **21512**

Schedule: 4/18/2022 to 4/29/2022

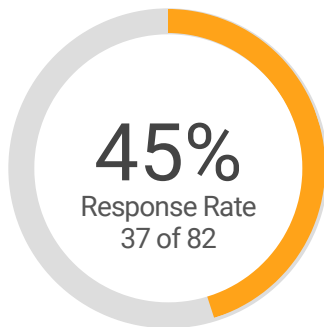

Results Available: 6/1/2022

This survey completed on **Friday, April 29, 2022** at **11:59PM**.

Institution: University of Rochester
College: School of Arts and Sciences
Department: Mathematics
Course Section: MATH 162 2 Calculus Ila
Course Section Director: NA
Instructor: Sergio Chaves

Comments on INSTRUCTOR:

(Instructor Text/Memo)

Sergio, Chaves Instructor

- He's great and really knows about the subject.
- Your notes are very organized!
- He was always very well prepared for class and used the technology (ipads etc) effectively to emphasize and organize important information
- Dr. Chaves provided a lot of examples during lectures and made sure to put extra time for the students who needed additional help with lessons. Very good instructor, but the class was not that great.
- good
- Good
- I strongly appreciate the extra help provided including the group review and the 1 on 1 sessions.
- I felt that the heavy use of slides made it harder to follow along with lectures, than when teachers only use handwritten notes. Simply because, even using shorthand, it was hard to get all the information down in my notes fast enough. Also, when something was written out, I felt those things weren't explained verbally as much as they would have been if the Prof had been writing them out as he was explaining them.
- Prof. Chaves is a great lecturer and I also appreciated how organized the posted notes were. In class, Prof. Chaves always made sure to have us answer questions and he would explain anything we didn't understand. Prof. Chaves would also go over previous concepts to start the lecture, which made the series unit much easier to understand.
- I likes how he went over many examples. It would be more helpful if his lectures were organized more clearly. I struggled to understand how what we were learning fit together.

great lectures prof
class notes made
help provided examples felt much been more
extra sure

Comments:

(Text/Memo)

- None
- good
- Good
- Im just not a huge fan of calc
- I don't really understand the real life applications for Calc 2, so it was hard for me to care a lot about the course. I think I really only need calculus one for my major or for life in general, so it was difficult to find motivation to complete webworks and fully understand the concepts.

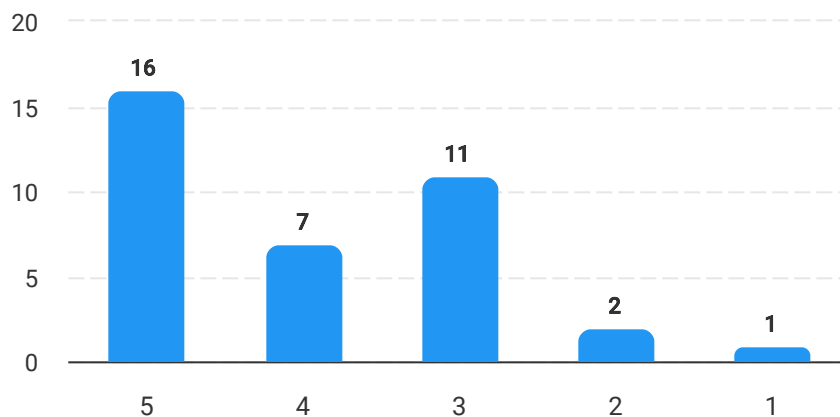

really life
understand

19

What overall rating, would you give this course?

Comments on COURSE:

(Text/Memo)

- good
- Good
- I just don't like calc
- The way the grading of exams works (with the whole part A of the final thing) is very good. It gives us an opportunity to actually learn how to study, and get better throughout the semester.
- I think that Prof. Chaves teaches the course well, but I would tell people not to take Calc 2 unless it is required or they have a serious love for math.
- The exams are unnecessarily difficult It is very frustrating when the questions of the exams contain crazy difficult integration or memorization that does not allow me to demonstrate what I have learned.

exams

difficult

Course-Specific Questions

COVID-Related Instruction

21

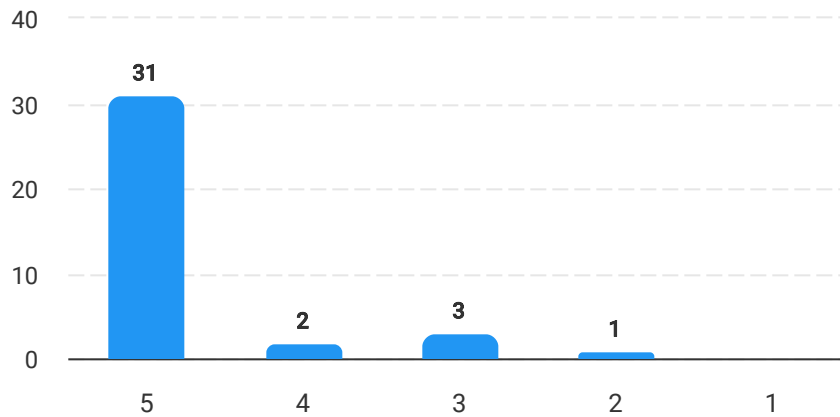

Under the current COVID-related instructional conditions, the instructor clearly articulated course expectations to students.

(Instructor Multi-Choice)
